

Fall 2007 Seminar Series

Aug 27	"Iris yellow spot virus in Georgia" Claudia Nischwitz, UGA Plant Pathology, Tifton
Sep 3	Labor Day Holiday
Sep 10	"Mycoviral modulation of fungal diseases in plants" Edwin Palencia, UGA Athens (1st PhD Seminar)
Sep 17	"Fungicide resistance in pecan and peanut pathogens: a history of un-natural selection" Dr. Katherine Stevenson, UGA Plant Pathology, Tifton
Sep 24	"Utilization and enhancement of entomogenous fungi n the management of the pecan weevil (Coleoptera: Curculionidae)" Erika Scocco, UGA Plant Pathology (1st PhD seminar)
Oct 1	"Peanut and pecan diseases: the politics, economics, and biology of management programs" Dr. Tim Breneman, UGA Plant Pathology, Tifton
Oct 8	"A modern <i>Ralstonia solanacereum</i> bestiary: biovars, proteomes and worms, oh my!" Dr. Tim Denny, UGA Plant Pathology, Athens
Oct 15	"Virus transmission by <i>Olpidium</i> spp." Murat Seyran, UGA Plant Pathology (1st MS seminar)
Oct 22	"Use of essential oils for post-harvest disease management in fruits" Sara Thomas, UGA Plant Pathology (1st MS seminar)
Oct 29	"Tydeid mites as a bio-control of powdery mildew on <i>Vitrus</i> species: manipulation of a tri-trophic interaction" Jeremy Haralson, UGA Plant Pathology (1st MS seminar)
Nov 5	"Exploring the roles of the <i>snf1</i> , <i>atgB</i> and <i>Uga1</i> genes in the <i>Ustilago maydis</i> - maize pathosystem" Marina Nadal, UGA Plant Pathology (PhD Proposal Seminar)
Nov 12	"Development and evaluation of screening techniques for identifying resistance to root- knot nematodes and <i>Cylindrocladium</i> black rot in peanut based on phenotype and molecular markers" Weibo Dong, UGA Plant Pathology (PhD Defense Seminar)
Nov 16	"Surveying for <i>Phytophthora</i> species in water and soil in Georgia" Stephanie Adams, UGA Plant Pathology (M.S. Defense Seminar)
Nov 19 Postponed	"Use of mild strains of <i>Xylella fastidiosa</i> to control Pierce's disease of grape" Yan Li, UGA Plant Pathology (1st PhD seminar)
Nov 26	"Species assemblages and distribution of corticolous Myxomycetes in the tree canopy of selected forests in Kentucky and Tennessee" Sydney Everhart, UGA Plant Pathology (1st PhD Seminar)
Nov 28 4:00 p.m. Rm 2401	"Underground Drugs: Mushrooms as a platform for the manufacture of biopharmaceuticals." Dr. Peter Romaine, Plant Pathology Dept., Penn State University (Graduate Student Invited Speaker)
Dec 3	"The regulation of <i>Ustilago maydis</i> sporulation in maize" Brijesh Karakkat, UGA Plant Pathology (PhD Proposal Seminar)
