

Fall 2013 Seminar Series

Aug 16	Orientation to Seminar John Sherwood
Aug 23	Biostimulation of Quorum Quenching bacteria: A novel approach to control <i>Pectobacterium atrosepticum</i> induced soft rots Manisha Rath, PhD Student Scott Gold, Major Professor
Aug 30	Conflicting evidences for the role of NPR proteins as receptors for Salicylic Acid in plant defense responses Gong Chen, PhD Student Ron Walcott, Major Professor
Sep 13	Role of species hybridization in emerging fungal plant pathogens Laura Williford, M.S. Student Harald Scherm & Phil Brannen, Co- Major Professors
Sep 20	Amendments for Enhancing the Biocontrol of Plant Pathogenic Nematodes Judith Williams-McFarquhar, M.S. Student Elizabeth Little, Major Professor
Sep 27	Genetic diversity, fungicide resistance, and pathogenicity of <i>Fusarium oxysporum</i> f. sp. <i>niveum</i> in the southeastern U.S. Aparna Petkar, M.S. transition to Ph.D. Student Pingsheng Ji, Major Professor
Oct 4	Light and Plant Immunity Shan Gao, M.S. Student Scott Gold & Tony Glenn, Co-Major Professors
Oct 11	Suppression of <i>Pythium ultimum</i> damping-off by compost-associated microbes Kevin Besler, M.S. Student Elizabeth Little, Major Professor
Oct 18	Fighting the battle against wheat stem rust: Identification of Sr33 and Sr35 Jane Marian Luis, M.S. Student Bob Kemeraït & Tony Glenn, Co-Major Professors
Oct 25	Characterization of <i>Arachis hypogaea</i> to <i>Puccinia arachidis</i> Imana Power, PhD Candidate Albert Culbreath, Major Professor
CANCELED	
Nov 1	FALL BREAK
Nov 8	Maize Seedling Blight Caused by <i>Fusarium verticillioides</i> Involves Fumonisin B1 Mobility and Modulation of Nitric Oxide by the Denitrification Pathway Tom Baldwin, PhD Candidate Tony Glenn, Major Professor
Nov 15	Integrated Management of Southern Corn Rust and Northern Corn Leaf Blight with Hybrids and Fungicides Suzette Arcibal, M.S. Student Bob Kemeraït, Major Professor
Nov 22	Epidemiology of blueberry necrotic ring blotch virus of southern highbush blueberries in Georgia Tanisha Robinson Mike Deom, Major Professor
Dec 3	The effects of early season, banded fungicide sprays on peanut disease development and management Yun-Ching Tsai, M.S. Student Tim Brenneman, Major Professor
CANCELED
